

## Mock Interview Challenge Portfolio

DOMAIN: DATA STRUCTURES & ALGORITHMS    TIMELINE: WEEK 8

RELEASE: BATCH 2026

### 1. Project Scope & Description

Compile a final portfolio of 10 complex solved DSA questions, detailing time and space complexity in a README on GitHub.

### 2. Key Technical Requirements

- 1. Solve 10 questions covering all major data structures.
- 2. Detail time and space complexity using mathematical notations.
- 3. Organize files inside a clean repository structure.

### 3. Assignment Submission Guidelines

**%<sup>a</sup>** GitHub Repository: Create a public repository on GitHub. Push your source code files regularly and write a professional README.md with screenshots and setup instructions.

**%<sup>a</sup>** LinkedIn Sharing: Write a brief post sharing what you built, what technologies you used, and what you learned. Tag @Jobify and attach a screenshot/video.

**%<sup>a</sup>** Portal Submission: Paste both your public GitHub repository URL and your LinkedIn post URL inside the student assignment submission panel.

#### **& p CRITICAL SUBMISSION POLICIES:**

Verify that your GitHub repository visibility is set to public. Private links cannot be analyzed by our automated evaluation engines and may lead to credit deductions.
